### STAR SPANGLED FLAG

I was greatly impressed with the Star Spangled flag the very first time I saw it, and I have always wanted the picture of President George Washington. Determined to get both of them and make a display in our school, I then found the picture of President Abraham Lincoln and knew that these 3 pictures would make a display that would be the envy of all who saw it.

I have long felt that we need something to demonstrate our patriotism and to teach and remind us of the basic American values we have cherished for so long and that seem to be slipping into the background more and more with every passing year.

So, these three pictures are now prominently displayed in the front entry-way of our school and represent, in my mind, our heritage of freedom and our responsibility to help preserve and protect the values we hold dear.

It is my dream to see such a display in every school, in every state in this nation.
